

26 May 1967

NOTE FOR: Carl

1. About a year ago we initiated some evening "Great Science" meetings: speakers included people like Von Braun, Dick Bissell, etc.

2. These meetings seemed to be well received in general, and it occurred to me that another series might be worth while this Fall. Initial planning and arranging for speakers should start in June or July if you would like to see this sort of thing resumed. A little greater emphasis on the softer sciences might be a welcome change.
